JULY 12th A Day at Great Bay

Low tide reveals the mudflats of Great Bay twice every day. On this day, the tides are just right - allowing us to explore low tide and high tide! Come enjoy these amazing habitats at Sandy Point and uncover some of the fantastic animals and plants that live there. Be prepared to get wet and muddy!

AUGUST 2nd Mystery on Great Bay

Join us for a day of mystery indoor and outdoor games and activities. If you like surprises, or even if you don't, you will be sure to have a super day near Great Bay! Make a mystery craft to take home.

**JULY 19th
Earth Art**
What art can you find in nature? Come create your own nature art, explore different subjects, watercolor, field sketching and journaling. We'll open our senses to the forest, listen to the birds, explore animal trails and observe silently at secret spots. Take your personalized sketchbook home too.

**JULY 26th
Raiders of the Lost Artifact**
The area around the Discovery Center has revealed many secrets for archaeologists. We have collections of both Native American and Colonial Settler artifacts. Join in on a simulated dig and make your own stone tool to take home.

AUGUST 9th A BUG'S LIFE

Insects are everywhere! Join us in discovering terrestrial and aquatic insects that live around Great Bay. We will view some of the insects we find under our video microscope. Create a cool little Bugbot to take home.

**AUGUST 16th
Old McDonald Had a Flounder?**
Fish, shellfish and seaweed can be farmed too! Aquaculture plays an important role in certain foods we use. We will taste test several products from the sea and make fish print t-shirts to take home.
