

Great Bay National Estuarine Research Reserve

2019 Research & Stewardship Internship

Who?

College students looking to gain land stewardship and field research experience. Boost your resume while helping to protect and study Great Bay!

What?

Support the Stewardship & Research Coordinators with field work, data entry, property boundary marking, and more.

When?

Approximately 120 hours total, May-September. There is some flexibility in the schedule.

Please send a resume and cover letter by March 29th, 2019 to Melissa Brogle, Volunteer Coordinator at melissa.brogle@wildlife.nh.gov. For more details please visit www.greatbay.org/programs/stewardship
