

NOAA Fellowship Opportunities

A research and professional opportunity for graduate students.

NERRS Davidson Graduate Fellowship

This two-year, paid research fellowship is an exciting opportunity for students to build a stronger relationship with the National Estuarine Research Reserve System. Fellows work closely with a Reserve mentor, contributing to research that helps coastal communities meet environmental challenges.

- *Applications due December 4, 2023.*
- coast.noaa.gov/nerrs/research/davidson-fellowship.html

NH Sea Grant Graduate Fellowships

NH Sea Grant provides graduate students with a number of paid fellowship opportunities in coastal and marine research, management, policy, and related fields. This includes the NHSG Graduate Research Fellowship, Knauss Marine Policy Fellowship, and others with various deadlines.
